## SEPTEMBER 14-15, 2022

### McCormick Place

2301 S King Drive  
Chicago, IL 60616

**The Additive Manufacturing Conference** is the only event in North America dedicated to the use of 3D printing technology for end-use part production.

The **AMC** is designed for today's industrial users of additive technology along with manufacturers recognizing that additive will play a role in their production in the years to come.

The conference provides two days of an immersive learning environment. Learn about the latest 3D printing developments, speak to industry leaders one-on-one, create business connections and see the technology actively being used in the **Additive Pavilion at IMTS**.

Scan here for updated information on speakers, networking and registration!

# SPEAKERS + CONTENT

## AM Programming

Curated by the Additive Manufacturing Media editors, the conference has built a reputation on exploring industrial applications of 3D printing in unique ways.

Speakers are drawn from successful production users of AM, both contract manufacturers and OEMs, as well as researchers and technology developers.

### AM for production, including:

- Component development
- Workflow and postprocessing
- Process development and qualification
- Integration with other part-making processes
- Successful use cases in production AM

## IMTS2022

This year, the Additive Manufacturing Conference is co-located with IMTS at McCormick Place in Chicago, IL. The International Manufacturing Technology Show is one of the largest industrial trade shows in the world, featuring more than 2,000 exhibiting companies and over 100,00 registrants. Access to the IMTS exhibit hall is included with your Additive Manufacturing Conference registration. For hotel and transportation information, visit [www.imts.com/travel](http://www.imts.com/travel).

## Who Attends?

Additive Manufacturing Conference attendees represent companies of all shapes, sizes and specialties. From multinational OEMs to independent contract machine shops; aerospace to medical to consumer products; owner to executive to engineer to operator. The one commonality is the interest in evolving their application of industrial additive manufacturing technologies. Following is a list of companies that have attended the Additive Manufacturing Conference.

### Past attendees include:

3M Company  
Able Tool Corp.  
ALCOA  
Autodesk  
Baker Hughes Inc.  
Bell Textron Inc.  
Berry Plastics  
Boeing  
Castrol  
Corning Inc.  
Cummins Inc.  
Dassault Falcon Jet  
DePuy Synthes  
Doosan  
Exactech Inc.  
ExxonMobil  
FedEx

Forecast 3D  
General Mills  
General Motors  
Goodyear Tire & Rubber Co.  
Harvard Medical School  
Honda EGA  
Honeywell  
Ingersoll Rand  
John Deere  
Keurig Green Mountain  
L-3 Communications  
Local Motors  
Medtronic Inc.  
Meyer Tool Inc.  
Michelin  
National Oilwell Varco  
Northrop Grumman

Parker Hannifin Corp.  
Penske Racing  
Procter & Gamble  
PepsiCo  
Raytheon  
Rockwell Collins  
Schneider Electric  
Siemens  
Stryker Orthopedics  
Tides Marine Inc.  
Toyota  
UC Aerospace  
Vader Systems LLC  
Volvo Trucks  
Whirlpool Corp.  
Zimmer Biomet

# SPECIAL EVENTS

## AM Pavilion at IMTS

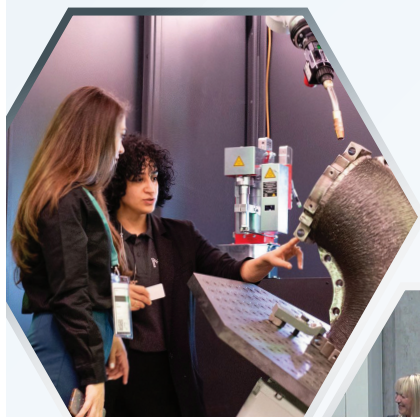

The Additive Manufacturing Conference will be conveniently located across from the Additive Pavilion at IMTS that will be filled with the most innovative equipment, software and service providers in 3D production. This is your opportunity to get up close and personal with the latest in additive technology.

## Networking Opportunities

Our special events are designed to maximize your learning and networking opportunities. This year's **Conference Pass** will feature breakfasts, lunches, breaks, and the grand reception.

# AM2022 CONFERENCE

## AM4U AREA PRESENTED BY formnext

Join us September 12–17 at IMTS 2022 as the AM4U Area presented by Formnext launches in the IMTS 2022 additive manufacturing pavilion.

The AM4U Area is a multi-use area on the show floor where industry experts present on topics such as seminars for the adoption of industrial AM, as well as entrepreneurship and business models for start-ups and young enterprises.

The 3D Printing Workshop for Job Shops at IMTS offers a unique opportunity to see how these technologies are blending and how shops are successfully implementing additive technology into their workflow. Learn how 3D printing can help your shop with prototyping, tooling, production and more.
